What is Canvas

Canvas is the third studio album fully written, composed and produced by Soto Orbis. In this project, Soto presents the many sides of him in 9 new tracks. In each song, Soto presents fictional stories, told by different characters, as allegories to his main characteristics, displaying how both complex and simple, weird and completely normal, contradictory and yet coherent he is.

Each track establishes unique universes that complement each other, going from groovy but mysterious atmospheres to mid-tempo minimalistic productions. While most of the lyrics are in English, the album also marks the first time Soto releases a song completely in his mother tongue Portuguese, with the song *Minimalismo*.

Who is Soto Orbis

Soto Orbis is Brazilian independent artist making electronic music without being signed by any record label. Starting with first album *Millenniarts* in 2020, Soto always tries to bring his world view and inner reflections through thoughtful lyrics and experimental production, playing with different genres in each release.
